Frameworks: React, Next.js, React Native, Node.js, Express, Django, Spring Boot

Databases: PostgreSQL, MongoDB, MySQL • Tools: Git, Docker, Jenkins, AWS, Kubernetes, CI/CD

• Testing: Jest, Mocha, Cypress, Selenium, Expo Go

• Other: REST APIs, GraphQL, Agile/Scrum, TDD

Soft Skills

Attention to detail in UI/UX implementation and code quality

Strong problem-solving and debugging abilities

Effective collaboration with cross-functional teams
(designers, backend developers, product managers)

Clear and concise communication of technical concepts

Adaptability to new technologies and project requirements

Excellent time management and task prioritization

Critical thinking for analyzing user needs and proposing solutions

Creativity in translating design ideas into interactive interfaces

Certifications

Diploma in Public Relations – Nigerian Institute of Public Relations (NIPR)

Certificate in Integrated Marketing Communications – Marketing Communications

ALX & Holberton Software Engineering – ALX Africa

AI for Developers

Gig-at-a-Startup program

- Assisted in the development of frontend components and features for the mobile application.
- Worked closely with senior developers to learn best practices and gain hands-on experience.
- Participated in code reviews and contributed to debugging and troubleshooting efforts.
- Collaborated with designers to implement UI/UX designs and ensure consistency across the application.
- Conducted testing and provided feedback on usability and functionality

PROJECTS

DAWN AI Study

<https://github.com/DAWNwebsite/dawn-ai-study/tree/diamond>

Next.js

A web-based learning platform that delivers AI-powered study tools and personalized dashboards to enhance learning through interactive content and progress tracking for neurodivergent learners.

Healthchase

<https://github.com/Joiejoie/healthchase/tree/main>

React Native, Node.js, Redux

A mobile application designed to promote healthy habits through gamified challenges and progress tracking.

Foodie

<https://github.com/Joiejoie/foodie/tree/main>

React.js, Redux, MongoDB, CSS

A full-stack web application that enables users to browse a diverse catalog of restaurant prepared dishes, place orders, and make payments, enhancing the food delivery experience for both customers and restaurants.

AI TOOLS

Languages

English	Native	
French	B2
